Preside by HON

HON's Preside conference series pays special attention to boardrooms. Tables can be specified in lengths from five to 20 feet or more, with options for bases, edges, and materials that express any aesthetic—traditional to contemporary. When access to technology is needed, it's immediately available in the tabletop via optional power and data ports.

Contact us for details on the many options available.

HON.

Rumba Screen Whiteboard

Get movin' and groovin' with the Rumba Collaboration Screens! These screens offer the choice of magnetic whiteboard, perforated steel and fluted plastic. The whiteboard screen has a double sided white board surface. The Whiteboard option can also be used as a projector screen. Each screen features two locking casters on an aluminum base along with a durable gray powder coat finish. A ganging connector set allows the screens to connect and keep in time with any workspace needs.

MultiStations OS Furniture

Reconfigurable Building Blocks

One of the objectives of a MultiStation OS design was to apply a systems based philosophy to casegoods. The result is a series of highly reconfigurable storage modules that act as building blocks - interplaying with a versatile panel system that slides and locks together with a single standard tool.

Slim 1" panels reduce panel creep and significantly reduce the multi-workstation footprint. Limited Lifetime Warranty

Panels / Modular Systems

Accelerate

Accelerate is the ideal workstation to outfit your entire space. With a variety of panel, worksurface and above and below storage, it works great alone or even better with complementary HON products. And with a broad selection of fabrics and finishes, Accelerate is the best solution to achieve a customized look for any space.

HON

Accelerate + Voi

Voi's integrated design unites a workplace, bringing a variety of spaces together with a consistent style. You can easily outfit your entire facility with Voi laminate or veneer desking, including private offices, semi-private offices, benching stations, and touchdown stations. And the same kit of parts and pieces that form desks in these applications are compatible with HON's Accelerate or Abound workstations in open plan configurations.

HON

Cosmopolitan Workstations

Sophisticated and flexible. Cosmopolitan is at home in any planning situation. Its flexibility and infinite design possibilities allow it to adapt to environments calling for an open plan, private spaces and everything in between.

Cosmopolitan defines the criteria for all-encompassing office furniture systems.

Ergonomics

Adjustable keyboard platforms can help maintain a neutral wrist posture and reduce strain, improper wrist positions and discomfort. Proper keyboard positioning can help eliminate musculoskeletal disorders of the elbows, shoulders, hands and wrists.

Height adjustable workstations give users the flexibility to change positions frequently and easily throughout the day, which can help improve health and productivity.

Adjustable monitor arms can help eliminate the tendency to sit in awkward positions by maintaining the proper viewing distance, height and angle of the monitor. Monitor arms can help keep the neck, shoulders and back in the proper posture to reduce muscle fatigue. They also free up the workspace to reduce clutter and increase efficiency. Using dual monitors can increase productivity over a single monitor by up to 50%.*
*Microsoft Research. Two Screens Are Better Than One. Suzanne Ross, September 2, 2003.

CPU holders raise the CPU off the floor, making them closer for the user to reach and can help reduce the tendency to stretch into an awkward position. CPU holders also help free up leg room under the user's workstation.

Footrests can help decrease circulation problems that can occur from long periods of sitting or inactivity. By supporting the legs, footrests can relieve pressure on the lower back.
